

# OPERATIONAL FUNCTIONALITY AT YOUR FINGERTIPS.

EVEN IF THE P-4030i MFP AND P-4035i MFP ARE EXTREMELY VERSATILE, ALL YOU NEED IS ONE FINGER TO GET THE BEST OUT OF THEM. BECAUSE THEY ARE CONTROLLED BY MEANS OF A CONFIGURABLE AND INTUITIVE TOUCH PANEL, SUCH AS THOSE WITH WHICH YOU ARE FAMILIAR FROM THE LATEST SMARTPHONES.

THERE IS A HYPAS INTERFACE AVAILABLE TO MAKE WORKING WITH THE MULTIFUNCTIONAL SYSTEM EVEN MORE INDIVIDUAL AND CONVENIENT. THIS CAN BE USED TO INTEGRATE OPTIONAL CUSTOMER-SPECIFIC SOFTWARE SOLUTIONS WITHOUT DIFFICULTY AND OPTIMISE YOUR WORKING ROUTINES. THINGS COULD NOT BE MORE USER-FRIENDLY!

## HIGHLIGHTS:

**User-friendly:** operation of the large, three-way adjustable and coloured touch panel is intuitive and can be adapted to your personal preferences. By means of the Home button you can quickly return to the home screen at any time. The integrated HypAS interface also makes it possible to incorporate optional customer-specific software and document management solutions – precisely in line with your requirements.

**Professional:** the system prints and copies 40 A4 pages per minute, with the first page being printed after just 9 seconds. The automatic document feeder has a capacity of 75 sheets and also scans 40 A4 pages per minute. In addition, it even offers the opportunity of processing two-sided originals in A6R format, such as prescriptions or cheques, automatically. In order to ensure that you do not run out of paper even in the case of large print jobs, there are a maximum of 2,600 sheets available from up to six paper sources.

**Secure:** thanks to the "Private Printing" function it is not possible for confidential documents to get into the wrong hands, as they are only printed out after a PIN has been entered on the device. Documents on a USB stick can be processed directly via the USB interface independently from the network. And anyone who wants to be totally secure can choose the optional Data Security Kit to provide optimum protection for sensitive data.

**Efficient:** the system is extremely economical in terms of energy use, as evidenced by the very good power consumption values. The long-life consumables and the integrated management codes ensure a high degree of cost transparency which relieves the pressure on your budget.

**Low-noise:** the integrated Quiet Mode can be selected at the press of a button for all functions, thereby reducing the noise levels to a minimum. Carry on working in peace and quiet!
